## REPORT TO SHAREHOLDERS

Dear Shareholders,

I am pleased to present our interim report for the third quarter of fiscal 2013 ended July 6, 2013.

Sales in the third quarter of 2013 reached \$3,573.3 million versus \$3,599.9 million last year, down 0.7%. Excluding the one-day shift of a holiday versus last year and the closure of some unprofitable stores, our 2013 third quarter sales remained stable compared to 2012. During the last quarters, a very low inflation of our food basket and increased competition affected our sales. Same-store sales decreased 0.9%.

We realized net earnings of \$149.8 million and fully diluted net earnings per share of \$1.55 in the third quarter of 2013 as opposed to \$144.4 million and \$1.43 in 2012. Excluding the earnings of the foodservice operation that we sold in the first quarter of 2013, adjusted net earnings from continuing operations<sup>(1)</sup> were \$149.9 million in the third quarter of 2013, up 1.4% from \$147.8 million last year, and adjusted fully diluted net earnings per share from continuing operations<sup>(1)</sup> were \$1.55, up 6.2% from \$1.46 last year.

Our financial position at the end of the third quarter of 2013 remains very solid. We had an unused authorized revolving line of credit in the amount of \$600.0 million. Our debt ratio (non-current debt/total capital) was 18.7%.

On August 13, 2013, the Board of Directors declared a quarterly dividend of \$0.25 per share, an increase of 16.3% over last year.

We achieved net earnings growth in the third quarter due to good margin management and strong operating cost control in a difficult competitive environment, particularly in Ontario. In order to better meet customer needs and reduce operating costs, we will carry out<sup>(2)</sup> a reorganization of our Ontario store network over the next few months that will affect<sup>(2)</sup> some 15 stores and entail<sup>(2)</sup> a restructuring charge of about \$40 million in the next quarter. We are confident that these investments in our network, combined with our merchandising programs, will allow<sup>(2)</sup> us to continue to grow despite increased competition.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The following Management's Discussion and Analysis (MD&A) sets out the financial position and consolidated results of METRO INC. on July 6, 2013. It should be read in conjunction with the unaudited interim condensed consolidated financial statements and accompanying notes in this interim report.

The unaudited interim condensed consolidated financial statements for the 16 and 40-week periods ended July 6, 2013 have been prepared by management in accordance with IAS 34 "Interim Financial Reporting". They should be read in conjunction with the audited annual consolidated financial statements and accompanying notes and the MD&A presented in the Corporation's 2012 Annual Report. Unless otherwise stated, this interim report is based upon information as at August 2, 2013.

Additional information, including the Certification of Interim Filings letters for the quarter ended July 6, 2013 signed by the President and Chief Executive Officer and the Senior Vice-President, Chief Financial Officer and Treasurer, is also available on the SEDAR website at: [www.sedar.com](http://www.sedar.com).

## OPERATING RESULTS

We realized net earnings of \$149.8 million in the third quarter of fiscal 2013, an increase of 3.7% over \$144.4 million last year, and fully diluted net earnings per share of \$1.55, an increase of 8.4% over \$1.43 last year.

### SALES

Sales in the third quarter of 2013 reached \$3,573.3 million versus \$3,599.9 million last year, down 0.7%. Excluding the one-day shift of a holiday versus last year and the closure of some unprofitable stores, our 2013 third quarter sales remained stable compared to 2012. During the last quarters, a very low inflation of our food basket and increased competition affected our sales. Same-store sales decreased 0.9%.

Sales in the first 40 weeks of 2013 reached \$8,791.2 million versus \$8,812.7 million for the corresponding period of fiscal 2012. Very low food inflation, increased competition, the closure of underperforming stores, and the temporary problems at our pharmaceutical product warehouse caused our sales to dip.

### EARNINGS BEFORE FINANCIAL COSTS, TAXES, DEPRECIATION AND AMORTIZATION (EBITDA)<sup>(1)</sup>

EBITDA<sup>(1)</sup> for the third quarter of 2013 was \$265.6 million, up 2.5% from \$259.1 million for the same quarter last year. Third-quarter EBITDA<sup>(1)</sup> represented 7.4% of sales versus 7.2% last year.

EBITDA<sup>(1)</sup> for the first 40 weeks of 2013 was \$633.8 million which represented 7.2% of sales versus \$613.2 million and 7.0% of sales for the corresponding period last year.

Third quarter and 40-week gross margins for 2013 were 18.9% and 19.0%, increases over the 18.7% for the corresponding periods of 2012. Effective margin management in a highly promotional environment, reduced shrink at store level, and the closure of unprofitable stores contributed to the improvement of our gross margin rates versus last year's.

### DEPRECIATION AND AMORTIZATION AND NET FINANCIAL COSTS

Total depreciation and amortization expenses for the third quarter and the first 40 weeks of 2013 amounted to \$55.0 million and \$138.3 million respectively versus \$57.7 million and \$142.1 million in 2012. The closure of unprofitable stores in late fiscal 2012 and early fiscal 2013 reduced depreciation costs compared to last year. Net financial costs for the third quarter and the first 40 weeks of 2013 totalled \$11.4 million and \$32.5 million compared to \$14.0 million and \$34.7 million for the corresponding periods of 2012. The average financing rate was 4.9% for the first 40 weeks of 2013 versus 4.1% for the corresponding period last fiscal year. This increase in the average rate was due to the reimbursement in the second quarter of 2013 of our revolving credit facility at a lower interest rate than our other debts.

### SHARE OF AN ASSOCIATE'S EARNINGS

Our share of earnings in Alimentation Couche-Tard was \$8.8 million for the third quarter and \$35.8 million for the first 40 weeks of 2013 versus \$13.6 million and \$35.5 million for the corresponding periods of 2012.

<sup>(1)</sup> See section on "IFRS and Non-IFRS Measurements"

<sup>(2)</sup> See section on "Forward-looking Information"

**GAIN ON DISPOSAL OF PART OF THE INVESTMENT IN AN ASSOCIATE**

In the second quarter of 2013, we sold nearly half of our investment in Alimentation Couche-Tard to three financial institutions for cash consideration of \$479.0 million and a net gain of \$266.4 million after taxes.

**INCOME TAXES**

Third quarter and 40-week period income tax expenses of \$58.1 million and \$174.8 million in 2013 represented effective tax rates of 27.9% and 21.7% compared with third quarter and 40-week period income tax expenses of \$56.2 million and \$127.2 million respectively in 2012 for effective tax rates of 28.0% and 27.0%.

Excluding the \$307.8 million gain on disposal of part of our investment in Alimentation Couche-Tard and related income tax of \$41.4 million, the effective tax rate for the first 40-week period of 2013 was 26.7%. Excluding the non-recurring income tax expense of \$3.0 million recorded in the third quarter of 2012, the effective tax rates for the third quarter and 40-week period of 2012 were 26.5% and 26.3%.

**NET EARNINGS**

Net earnings for the third quarter of 2013 were \$149.8 million, an increase of 3.7% over net earnings of \$144.4 million for the same quarter of 2012. Fully diluted net earnings per share rose 8.4% to \$1.55 from \$1.43 last year.

Net earnings for the first 40 weeks of 2013 reached \$638.0 million, up 85.4% from \$344.2 million for the corresponding period of 2012. Fully diluted net earnings per share were \$6.56 compared to \$3.38 last year, an increase of 94.1%.

**NET EARNINGS (LOSS) FROM DISCONTINUED OPERATION**

In the first quarter of 2013, we discontinued our foodservice operation and disposed of the Distagro division which supplied restaurant chains and convenience stores belonging to and operated by gas station chains. The division's sales and expenses are presented under the item "Discontinued operation" for 2012 and 2013.

Certain discontinuance-related activities went on until the end of the third quarter. The net loss from the discontinued operation was \$0.1 million for the third quarter of 2013 versus \$0.4 million for the same quarter of 2012. In the first 40 weeks of 2013, we recorded net earnings of \$6.2 million due chiefly to the gain on disposal versus a net loss of \$0.5 million for the same period of 2012.

**NET EARNINGS FROM CONTINUING OPERATIONS**

Net earnings from continuing operations were \$149.9 million for the third quarter of 2013, an increase of 3.5% over \$144.8 million for the same quarter last year. Fully diluted net earnings per share from continuing operations were \$1.55 for the third quarter of 2013 compared to \$1.43 last year, an increase of 8.4%.

Net earnings from continuing operations were \$631.8 million for the 40-week period of 2013 versus \$344.7 million last year, an increase of 83.3%. Fully diluted net earnings per share from continuing operations were \$6.49 for the 40-week period of 2013 versus \$3.38 last year, an increase of 92.0%.

**ADJUSTED NET EARNINGS FROM CONTINUING OPERATIONS<sup>(1)</sup>**

Excluding the non-recurring income tax expense of \$3.0 million recorded in the third quarter of 2012, adjusted net earnings from continuing operations<sup>(1)</sup> for the third quarter of 2013 were up 1.4% from the same quarter last year, and adjusted fully diluted net earnings per share from continuing operations<sup>(1)</sup> were up 6.2% over last year's.

Excluding the non-recurring income tax expense of \$3.0 million in 2012 and the gain on disposal of part of our investment in Alimentation Couche-Tard in 2013 of \$266.4 million, adjusted net earnings from continuing operations<sup>(1)</sup> for the 40-week period of 2013 were \$365.4 million versus \$347.7 million last year, an increase of 5.1%, and adjusted fully diluted net earnings per share from continuing operations<sup>(1)</sup> were \$3.73 versus \$3.41 last year, an increase of 9.4%.

<sup>(3)</sup> 12 weeks

<sup>(4)</sup> 16 weeks

<sup>(5)</sup> 2013 and 2011 - 12 weeks, 2012 - 13 weeks

First quarter sales for 2013 reached \$2,704.7 million versus \$2,632.6 million for 2012, an increase of 2.7%. Same-store sales were up 1.5%. This increase is due in part to the week preceding Christmas falling in the first quarter of 2013 rather than the second quarter as it did last year. We experienced very low inflation in our food basket in the first quarter.

Sales in the second quarter of 2013 reached \$2,513.2 million versus \$2,580.2 million last year. This decrease resulted primarily from the shift in the important week preceding Christmas (which in this fiscal year was included in the first quarter compared to the second quarter last year), the closure of a few unprofitable stores in Ontario, as well as the loss of sales in our pharmaceutical division due to temporary efficiency difficulties following the implementation of a new warehouse management system. Adjusting for the Christmas week shift, same-store sales were flat versus last year. We experienced no inflation in our food basket for the second quarter of 2013.

Sales in the third quarter of 2013 reached \$3,573.3 million versus \$3,599.9 million last year, down 0.7%. Excluding the one-day shift of a holiday versus last year and the closure of some unprofitable stores, our 2013 third quarter sales remained stable compared to 2012. During the last quarters, a very low inflation of our food basket and increased competition affected our sales. Same-store sales decreased 0.9%.

<sup>(1)</sup> See section on "IFRS and Non-IFRS Measurements"

<sup>(2)</sup> See section on "Forward-looking Information"

Fourth quarter sales for 2012 reached \$2,862.2 million, up 11.4% from \$2,568.9 million for the corresponding quarter of 2011. Excluding the 53<sup>rd</sup> week of fiscal 2012, the sales increase for the fourth quarter was 2.5%. Adonis stores and distributor Phoenicia contributed \$63.3 million to 2012 fourth quarter sales. During the fourth quarter of 2012, we experienced very modest inflation similar to the previous quarter.

Net earnings for the first quarter of fiscal 2013 were \$121.4 million, an increase of 17.1% over net earnings of \$103.7 million for the same quarter of 2012. Fully diluted net earnings per share rose 21.8% to \$1.23 from \$1.01 last year. In the first quarter of 2013, we discontinued our foodservice operation and disposed of the Distagro division which supplied restaurant chains and convenience stores belonging to and operated by gas station chains. Excluding net earnings from discontinued operation, net earnings from continuing operations were \$115.0 million and fully diluted net earnings per share from continuing operations were \$1.16 in 2013, up 11.0% and 14.9% respectively from \$103.6 million and \$1.01 in 2012.

Net earnings for the second quarter of fiscal 2013 were \$366.8 million compared to \$96.1 million for the same quarter of 2012, an increase of 281.7%. Fully diluted net earnings per share rose 301.1% to \$3.77 from \$0.94 in 2012. Excluding the net loss from the discontinued operation of \$0.1 million in the second quarter of 2013 versus \$0.2 million in 2012, net earnings from continuing operations for the second quarter of 2013 were \$366.9 million, an increase of 281.0% over \$96.3 million for the same quarter last year. Fully diluted net earnings per share from continuing operations were \$3.77 for the second quarter of 2013 compared to \$0.94 last year, an increase of 301.1%. Excluding the after-tax gain on disposal of part of our investment in Alimentation Couche-Tard, 2013 second quarter adjusted net earnings from continuing operations<sup>(1)</sup> were \$100.5 million, up 4.4% from \$96.3 million last year, and adjusted fully diluted net earnings per share from continuing operations<sup>(1)</sup> were \$1.02, up 8.5% from \$0.94 last year.

Net earnings for the third quarter of 2013 were \$149.8 million, up 3.7% from \$144.4 million for the corresponding quarter of 2012. Fully diluted net earnings per share were \$1.55, up 8.4% from \$1.43 last year. Excluding the net loss from the discontinued operation of \$0.1 million for the third quarter of 2013 versus \$0.4 million for the same quarter of 2012 and excluding also the non-recurring tax expense of \$3.0 million of 2012, adjusted net earnings from continuing operations<sup>(1)</sup> were \$149.9 million in the third quarter of 2013, up 1.4% from \$147.8 million last year, and adjusted fully diluted net earnings per share from continuing operations<sup>(1)</sup> were \$1.55, up 6.2% from \$1.46 last year.

Net earnings for the fourth quarter of 2012 were \$145.1 million versus \$84.4 million for the corresponding quarter of 2011, an increase of 71.9%. Fully diluted net earnings per share were \$1.46 versus \$0.83 in 2011, an increase of 75.9%. Excluding the Alimentation Couche-Tard dilution gain of \$25.0 million before taxes and the \$0.4 million discontinued operation net loss recorded in the fourth quarter of 2012, as well as the closure costs of \$20.5 million before taxes and the \$1.3 million discontinued operation net loss in the corresponding quarter of 2011, our adjusted net earnings from continuing operations<sup>(1)</sup> for the fourth quarter of 2012 were \$123.8 million and our adjusted fully diluted net earnings per share from continuing operations<sup>(1)</sup> were \$1.25, for increases of 23.6% and 27.6% respectively. The significant increase in net earnings for the fourth quarter of 2012 is also attributable to the results for the 53<sup>rd</sup> week of 2012 when several fixed costs were no longer in effect. The impact of the 53<sup>rd</sup> week on fully diluted net earnings per share was \$0.11.

## CASH POSITION

### OPERATING ACTIVITIES

Operating activities generated cash flows of \$168.0 million in the third quarter and \$407.0 million over the first 40 weeks of 2013 compared to \$243.1 million and \$419.3 million in the corresponding periods of 2012. These decreases are attributable mainly to changes in non-cash working capital items.

### INVESTING ACTIVITIES

Investing activities required outflows of \$70.9 million in the third quarter and generated cash flows of \$308.4 million over the first 40 weeks of 2013 versus outflows of \$71.8 million and \$287.8 million in the corresponding periods of 2012. The change in the 40-week period is mainly due to the net proceeds from the disposal of part of our investment in Alimentation Couche-Tard for \$472.6 million, as well as the proceeds from the disposal of Distagro for \$22.7 million in the 40-week period of 2013.

During the first 40 weeks of 2013, we invested with our retailers \$182.0 million in our retail network, for a gross expansion of 363,100 square feet and a net expansion of 112,700 square feet or 0.6%. Major renovations and expansions of 6 stores were completed and 7 new stores were opened.

### FINANCING ACTIVITIES

We utilized \$203.8 million of funds for the third quarter and \$700.3 million for the first 40 weeks of 2013 versus \$127.8 million and \$288.6 million in the corresponding periods of 2012. These increases in outflows are largely attributable to the greater redemption of shares in the third quarter and 40-week period of 2013, in the amounts of \$181.8 million and \$311.1 million respectively versus \$89.2 million and \$212.5 million for the corresponding periods of 2012, and to the \$330.4 million repayment, in the second quarter of 2013, of our revolving credit facility from the proceeds of the disposal of part of our investment in Alimentation Couche-Tard.

## FINANCIAL POSITION

We do not anticipate<sup>(2)</sup> any liquidity risk and consider our financial position at the end of the third quarter of fiscal 2013 as very solid. We had an unused authorized revolving credit facility of \$600.0 million. Our non-current debt corresponded to 18.7% of the combined total of non-current debt and equity (non-current debt/total capital).

At the end of the third quarter of 2013, the main elements of our non-current debt were as follows:

	Interest Rate	Balance <i>(Millions of dollars)</i>	Maturity
Revolving Credit Facility	Rates fluctuate with changes in bankers' acceptance rates	—	November 3, 2017
Series A Notes	4.98% fixed rate	200.0	October 15, 2015
Series B Notes	5.97% fixed rate	400.0	October 15, 2035

<sup>(1)</sup> See section on "IFRS and Non-IFRS Measurements"

<sup>(2)</sup> See section on "Forward-looking Information"

At the end of the third quarter, we had foreign exchange forward contracts to hedge against the effect of foreign exchange rate fluctuations on our future foreign-denominated purchases of goods and services.

Our main financial ratios were as follows:

	As at July 6, 2013	As at September 29, 2012

#### NORMAL COURSE ISSUER BID PROGRAM

The Corporation intends to renew its normal course issuer bid program as an additional option for using excess funds. Under the normal course issuer bid program, the Corporation may repurchase up to 6,000,000 of its Common Shares between September 10, 2012 and September 9, 2013. Between September 10, 2012 and August 2, 2013, the Corporation has repurchased 5,306,500 Common Shares at an average price of \$65.25 for a total of \$346.3 million.

#### DIVIDENDS

On August 13, 2013, the Corporation's Board of Directors declared a quarterly dividend of \$0.25 per Common Share payable September 20, 2013, an increase of 16.3% over the dividend declared for the same quarter last year. On an annualized basis, this dividend represents approximately 20% of 2012 net earnings excluding non-recurring items.

#### SHARE TRADING

The value of METRO shares remained in the \$56.52 to \$74.00 range over the first 40 weeks of fiscal 2013. During this period, a total of 57.8 million shares traded on the Toronto Stock Exchange. The closing price on Friday, August 2, 2013 was \$74.15 compared with \$58.40 at the end of fiscal 2012.

## **NEW ACCOUNTING POLICIES**

### **RECENTLY ISSUED**

#### **Classification and measurement of financial assets and financial liabilities**

In November 2009, the International Accounting Standards Board (IASB) issued IFRS 9 "Financial Instruments". This new standard replaces the various rules of IAS 39 "Financial Instruments: Recognition and Measurement" with a single approach to determine whether a financial asset is measured at amortized cost or fair value. This approach is based on how an entity manages its financial instruments and the contractual cash flow characteristics of the financial assets.

In October 2010, the IASB issued revisions to IFRS 9, adding the requirements for classification and measurement of financial liabilities contained in IAS 39.

In December 2011, the IASB deferred the mandatory effective date of IFRS 9 to fiscal years beginning on or after January 1, 2015. Early adoption is permitted under certain conditions. The Corporation will not adopt this new standard early and will, over the next fiscal year, assess the impact of IFRS 9 on its financial statements.

#### **Offsetting financial assets and financial liabilities**

In December 2011, the IASB issued amendments to IAS 32 "Financial Instruments: Presentation" clarifying the requirements for offsetting financial assets and financial liabilities. The IASB specified that the right of set-off had to be legally enforceable even in the event of bankruptcy.

The IASB also issued amendments to IFRS 7 "Financial Instruments: Disclosures" improving disclosures on offsetting of financial assets and financial liabilities.

The amendments to IFRS 7 are applicable to the first quarter of the Corporation's 2014 fiscal year. The amendments to IAS 32 are applicable to the first quarter of fiscal 2015. In order to co-ordinate the two standards' application, the Corporation will early adopt IAS 32 in the first quarter of its 2014 fiscal year and is currently evaluating the impact of the modifications on its financial statements.

#### **Consolidated financial statements**

In May 2011, the IASB issued IFRS 10 "Consolidated Financial Statements" which is a replacement of SIC-12 "Consolidation - Special Interest Entities" and certain parts of IAS 27 "Consolidated and Separate Financial Statements". IFRS 10 eliminates the risk/benefit-based approach and uses control as the sole basis for consolidation. An investor controls an investee if and only if the investor has all of the following elements:

- a) power over the investee;
- b) exposure or rights to variable returns from involvement with the investee;
- c) the ability to use power over the investee to affect the amount of the investor's returns.

The Corporation will apply IFRS 10 as of the first quarter of its 2014 fiscal year. This standard will not impact the Corporation's financial statements.

#### **Joint arrangements**

In May 2011, the IASB issued IFRS 11 "Joint Arrangements" which supersedes IAS 31 "Interests in Joint Ventures" and SIC-13 "Jointly Controlled Entities - Non-Monetary Contributions by Venturers". This standard describes two types of joint arrangements which differ according to the rights and obligations of the partners: joint operations and joint ventures. IFRS 11 eliminates the proportionate consolidation method for joint ventures and requires the equity method. However, proportionate consolidation is maintained for joint operations. The Corporation will apply IFRS 11 as of the first quarter of its 2014 fiscal year. This standard will not impact the Corporation's financial statements.

<sup>(1)</sup> See section on "IFRS and Non-IFRS Measurements"

<sup>(2)</sup> See section on "Forward-looking Information"

**Disclosure of interests in other entities**

In May 2011, the IASB issued IFRS 12 “Disclosure of Interests in Other Entities” which requires that an entity disclose more information on the nature of and risks associated with its interests in other entities (i.e. subsidiaries, joint arrangements, associates or unconsolidated structured entities) and the effects of those interests on its financial statements. The Corporation will apply IFRS 12 as of the first quarter of its 2014 fiscal year. Additional information will be disclosed through notes to financial statements.

**Fair value measurement**

In May 2011, the IASB issued IFRS 13 “Fair Value Measurement” to establish a single framework for fair value measurement of financial and non-financial items. IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It also requires disclosure of more information on fair value measurements. The Corporation will apply IFRS 13 as of the first quarter of its 2014 fiscal year. This standard will not impact the Corporation’s financial statements, but additional information will be disclosed through notes to financial statements.

**Employee benefits**

In June 2011, the IASB issued amendments to IAS 19 “Employee Benefits” (IAS 19R). IAS 19R eliminates the corridor method for recognizing changes (actuarial gains and losses) in defined benefit obligations and plan assets and requires that they be recognized in other comprehensive income when they occur. Application of this amendment will have no impact, as the Corporation has used immediate recognition of actuarial gains and losses in other comprehensive income since the transition to IFRS.

IAS 19R eliminates the possibility of deferring recognition of past service costs related to unvested benefits and requires their immediate recognition in the income statement. Application of this amendment will have no impact for the Corporation, as no past service costs have been deferred since the transition to IFRS.

Under IAS 19, the employee benefit expense included a financial cost composed of interest income corresponding to the expected return on plan assets measured according to management assumptions based on market expectations. IAS 19R eliminates the expected return on plan assets component and requires recognition of net interest on defined benefit obligations net of plan assets based on the discount rate for measuring obligations. This net interest is not a component of the employee benefit expense and will be presented as part of finance costs. The Corporation expects this amendment to increase annual employee benefit expenses by about \$15 million and annual financial costs by about \$10 million.

IAS 19R also requires additional disclosures to present the characteristics of defined benefit plans.

The Corporation will apply these amendments as of the first quarter of its 2014 fiscal year.

**Presentation of financial statements**

In June 2011, the IASB issued amendments to IAS 1 “Presentation of Financial Statements”. Items of other comprehensive income and the corresponding tax expense are required to be grouped into those that will and will not subsequently be reclassified through net earnings. The Corporation will apply these amendments in its fiscal 2013 annual financial statements. Additional information will be disclosed in the consolidated statement of comprehensive income.

**Impairment of assets**

In May 2013, the IASB issued amendments to IAS 36 “Impairment of Assets” to require disclosures about assets or cash generating units for which an impairment loss was recognized or reversed during the period. The Corporation will apply the amendments to IAS 36 along with the new IFRS 13 requirements as of the first quarter of its 2014 fiscal year. Additional information will be disclosed through notes to financial statements.

## **FORWARD-LOOKING INFORMATION**

We have used, throughout this report, different statements that could, within the context of regulations issued by the Canadian Securities Administrators, be construed as being forward-looking information. In general, any statement contained herein, which does not constitute a historical fact, may be deemed a forward-looking statement. Expressions such as “carry out”, “affect”, “entail”, “allow”, “anticipate”, “proceed”, “estimate”, “incur”, and other similar expressions are generally indicative of forward-looking statements. The forward-looking statements contained herein are based upon certain assumptions regarding the Canadian food industry, the general economy, our annual budget, as well as our 2013 action plan.

These forward-looking statements do not provide any guarantees as to the future performance of the Corporation and are subject to potential risks, known and unknown, as well as uncertainties that could cause the outcome to differ significantly. An economic slowdown or recession, or the arrival of a new competitor, are examples described under the “Risk Management” section of the 2012 Annual Report which could have an impact on these statements. We believe these statements to be reasonable and pertinent as at the date of publication of this report and represent our expectations. The Corporation does not intend to update any forward-looking statement contained herein, except as required by applicable law.

## **IFRS AND NON-IFRS MEASUREMENTS**

In addition to the IFRS earnings measurements provided, we have included certain IFRS and non-IFRS earnings measurements. These measurements are presented for information purposes only. They do not have a standardized meaning prescribed by IFRS and therefore may not be comparable to similar measurements presented by other public companies.

## **EARNINGS BEFORE FINANCIAL COSTS, TAXES, DEPRECIATION AND AMORTIZATION (EBITDA)**

EBITDA is a measurement of earnings that excludes financial costs, taxes, depreciation and amortization. It is an additional IFRS measurement and it is presented separately in the consolidated statements of income. We believe that EBITDA is a measurement commonly used by readers of financial statements to evaluate a company's operational cash-generating capacity and ability to discharge its financial expenses.

## **ADJUSTED NET EARNINGS FROM CONTINUING OPERATIONS AND ADJUSTED FULLY DILUTED NET EARNINGS PER SHARE FROM CONTINUING OPERATIONS**

Adjusted net earnings from continuing operations and adjusted fully diluted net earnings per share from continuing operations are earnings measurements that exclude non-recurring items. They are non-IFRS measurements. We believe that presenting earnings without non-recurring items leaves readers of financial statements better informed as to the current period and corresponding period's earnings, thus enabling them to better evaluate the Corporation's performance and judge its future outlook.

## **EVENT AFTER THE REPORTING PERIOD**

We will proceed<sup>(2)</sup> over the course of the following months with a reorganization of our Ontario store network including the conversion of certain Metro stores into Food Basics discount banner stores, the buyout of some collective agreement provisions, the offer of early exit to some employees and the closure of some stores. Reorganization costs from this decision are estimated<sup>(2)</sup> to be \$40 million which will be incurred<sup>(2)</sup> in the next quarter. This reorganization plan will allow<sup>(2)</sup> us to better meet customers' needs and reduce operating costs.

## **OUTLOOK**

We achieved net earnings growth in the third quarter due to good margin management and strong operating cost control in a difficult competitive environment, particularly in Ontario. In order to better meet customer needs and reduce operating costs, we will carry out<sup>(2)</sup> a reorganization of our Ontario store network over the next few months that will affect<sup>(2)</sup> some 15 stores and entail<sup>(2)</sup> a restructuring charge of about \$40 million in the next quarter. We are confident that these investments in our network, combined with our merchandising programs, will allow<sup>(2)</sup> us to continue to grow despite increased competition.

**Notes to interim condensed consolidated financial statements****Periods ended July 6, 2013 and June 30, 2012***(Unaudited) (Millions of dollars, unless otherwise indicated)***1. STATEMENT PRESENTATION**

METRO INC. (the Corporation) is a company incorporated under the laws of Québec. The Corporation is one of Canada's leading food retailers and distributors and operates a network of supermarkets, discount stores and drugstores. Its head office is located at 11011 Maurice-Duplessis Blvd., Montréal, Québec, Canada, H1C 1V6. Its various components constitute a single operating segment.

The unaudited interim condensed consolidated financial statements for the 16 and 40-week periods ended July 6, 2013 have been prepared by management in accordance with IAS 34 "Interim Financial Reporting" and using the same accounting policies as those used in preparing the audited annual consolidated financial statements for the year ended September 29, 2012. They should be read in conjunction with the audited annual consolidated financial statements and accompanying notes which were presented in the Corporation's 2012 Annual Report. Operating income for the interim period presented does not necessarily reflect income for the whole year.

**2. NEW ACCOUNTING POLICIES****RECENTLY ISSUED****Classification and measurement of financial assets and financial liabilities**

In November 2009, the International Accounting Standards Board (IASB) issued IFRS 9 "Financial Instruments". This new standard replaces the various rules of IAS 39 "Financial Instruments: Recognition and Measurement" with a single approach to determine whether a financial asset is measured at amortized cost or fair value. This approach is based on how an entity manages its financial instruments and the contractual cash flow characteristics of the financial assets.

In October 2010, the IASB issued revisions to IFRS 9, adding the requirements for classification and measurement of financial liabilities contained in IAS 39.

In December 2011, the IASB deferred the mandatory effective date of IFRS 9 to fiscal years beginning on or after January 1, 2015. Early adoption is permitted under certain conditions. The Corporation will not adopt this new standard early and will, over the next fiscal year, assess the impact of IFRS 9 on its financial statements.

**Offsetting financial assets and financial liabilities**

In December 2011, the IASB issued amendments to IAS 32 "Financial Instruments: Presentation" clarifying the requirements for offsetting financial assets and financial liabilities. The IASB specified that the right of set-off had to be legally enforceable even in the event of bankruptcy.

The IASB also issued amendments to IFRS 7 "Financial Instruments: Disclosures" improving disclosures on offsetting of financial assets and financial liabilities.

The amendments to IFRS 7 are applicable to the first quarter of the Corporation's 2014 fiscal year. The amendments to IAS 32 are applicable to the first quarter of fiscal 2015. In order to co-ordinate the two standards' application, the Corporation will early adopt IAS 32 in the first quarter of its 2014 fiscal year and is currently evaluating the impact of the modifications on its financial statements.

**Consolidated financial statements**

In May 2011, the IASB issued IFRS 10 "Consolidated Financial Statements" which is a replacement of SIC-12 "Consolidation - Special Interest Entities" and certain parts of IAS 27 "Consolidated and Separate Financial Statements". IFRS 10 eliminates the risk/benefit-based approach and uses control as the sole basis for consolidation. An investor controls an investee if and only if the investor has all of the following elements:

- a) power over the investee;
- b) exposure or rights to variable returns from involvement with the investee;
- c) the ability to use power over the investee to affect the amount of the investor's returns.

**Notes to interim condensed consolidated financial statements****Periods ended July 6, 2013 and June 30, 2012***(Unaudited) (Millions of dollars, unless otherwise indicated)*

The Corporation will apply IFRS 10 as of the first quarter of its 2014 fiscal year. This standard will not impact the Corporation's financial statements.

**Joint arrangements**

In May 2011, the IASB issued IFRS 11 "Joint Arrangements" which supersedes IAS 31 "Interests in Joint Ventures" and SIC-13 "Jointly Controlled Entities - Non-Monetary Contributions by Venturers". This standard describes two types of joint arrangements which differ according to the rights and obligations of the partners: joint operations and joint ventures. IFRS 11 eliminates the proportionate consolidation method for joint ventures and requires the equity method. However, proportionate consolidation is maintained for joint operations. The Corporation will apply IFRS 11 as of the first quarter of its 2014 fiscal year. This standard will not impact the Corporation's financial statements.

**Disclosure of interests in other entities**

In May 2011, the IASB issued IFRS 12 "Disclosure of Interests in Other Entities" which requires that an entity disclose more information on the nature of and risks associated with its interests in other entities (i.e. subsidiaries, joint arrangements, associates or unconsolidated structured entities) and the effects of those interests on its financial statements. The Corporation will apply IFRS 12 as of the first quarter of its 2014 fiscal year. Additional information will be disclosed through notes to financial statements.

**Fair value measurement**

In May 2011, the IASB issued IFRS 13 "Fair Value Measurement" to establish a single framework for fair value measurement of financial and non-financial items. IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It also requires disclosure of more information on fair value measurements. The Corporation will apply IFRS 13 as of the first quarter of its 2014 fiscal year. This standard will not impact the Corporation's financial statements, but additional information will be disclosed through notes to financial statements.

**Employee benefits**

In June 2011, the IASB issued amendments to IAS 19 "Employee Benefits" (IAS 19R). IAS 19R eliminates the corridor method for recognizing changes (actuarial gains and losses) in defined benefit obligations and plan assets and requires that they be recognized in other comprehensive income when they occur. Application of this amendment will have no impact, as the Corporation has used immediate recognition of actuarial gains and losses in other comprehensive income since the transition to IFRS.

IAS 19R eliminates the possibility of deferring recognition of past service costs related to unvested benefits and requires their immediate recognition in the income statement. Application of this amendment will have no impact for the Corporation, as no past service costs have been deferred since the transition to IFRS.

Under IAS 19, the employee benefit expense included a financial cost composed of interest income corresponding to the expected return on plan assets measured according to management assumptions based on market expectations. IAS 19R eliminates the expected return on plan assets component and requires recognition of net interest on defined benefit obligations net of plan assets based on the discount rate for measuring obligations. This net interest is not a component of the employee benefit expense and will be presented as part of finance costs. The Corporation expects this amendment to increase annual employee benefit expenses by about \$15 and annual financial costs by about \$10.

IAS 19R also requires additional disclosures to present the characteristics of defined benefit plans.

The Corporation will apply these amendments as of the first quarter of its 2014 fiscal year.

**Presentation of financial statements**

In June 2011, the IASB issued amendments to IAS 1 "Presentation of Financial Statements". Items of other comprehensive income and the corresponding tax expense are required to be grouped into those that will and will not subsequently be reclassified through net earnings. The Corporation will apply these amendments in its fiscal 2013 annual financial statements. Additional information will be disclosed in the consolidated statement of comprehensive income.

**Notes to interim condensed consolidated financial statements**

**Periods ended July 6, 2013 and June 30, 2012**

*(Unaudited) (Millions of dollars, unless otherwise indicated)*

**Impairment of assets**

In May 2013, the IASB issued amendments to IAS 36 “Impairment of Assets” to require disclosures about assets or cash generating units for which an impairment loss was recognized or reversed during the period. The Corporation will apply the amendments to IAS 36 along with the new IFRS 13 requirements as of the first quarter of its 2014 fiscal year. Additional information will be disclosed through notes to financial statements.

**3. BUSINESS ACQUISITIONS**

**ADONIS AND PHOENICIA**

On October 23, 2011, the Corporation acquired 55% of the net assets of Adonis, a Montréal-area retailer with four existing stores and a fifth one under construction that was opened in December 2011, as well as Phoenicia, an importer and wholesaler with a distribution centre in Montréal and another in the Greater Toronto Area. These businesses specialize in perishable and ethnic food products. The final purchase price paid by the Corporation for the 55% interest was \$161.4, the remaining balance of \$11.6 as at September 29, 2012 has been paid during the first quarter of 2013. The acquisition was accounted for using the purchase method. The Corporation controls the acquired businesses and consolidated their earnings as of the date of acquisition. The final total purchase price allocation was as follows:

Net assets acquired at their fair value	
Cash	3.0
Accounts receivable	10.6
Inventories	24.3
Prepaid expenses	0.5
Fixed assets	11.9
Intangible assets	
Finite useful life	10.7
Indefinite useful life	63.4
Goodwill	206.8
Bank loans	(15.5)
Accounts payable	(5.4)
Debt	(10.4)
Deferred tax liabilities	(6.4)
	<hr/> 293.5
	<hr/>
Cash consideration for the Corporation’s interest (55%)	161.4
Non-controlling interest (45%)	132.1
	<hr/> 293.5

The non-controlling interest was measured at 45% of the fair value of the acquired companies' net assets.

The goodwill from the acquisition corresponds to the growth potential of Adonis stores and the broadening of the Corporation’s customer base through improvement of the ethnic food offering in all its stores. In the goodwill’s tax treatment, 53% of the goodwill is treated as an eligible capital property with related tax deductions and 47% as non-deductible.

Between October 23, 2011 and September 29, 2012, the acquired businesses have increased Corporation sales and net earnings by \$236.6 and \$16.0 respectively. If the acquisition had taken place at the beginning of fiscal 2012, the acquired businesses would have increased Corporation sales and net earnings by an additional amount of \$16.5 and \$1.1 respectively.

In 2012, acquisition-related costs of \$1.1 were recorded in cost of sales and operating expenses.

### 6. DISCONTINUED OPERATION

On December 17, 2012, the Corporation disposed of its food service operation, the Distagro division, which supplied restaurant chains and convenience stores belonging to and operated by gas station chains. The final disposal price of this operation was \$23.6, with a balance receivable of \$0.9. Adjustments to the disposal price were finalized in the present quarter.

Sales and other income statement items of this division are presented in the condensed consolidated statement of income in the "Discontinued operation" section, and the comparable 16 and 40-week periods ended June 30, 2012 was restated as a result.

The discontinued operation's net earnings (loss) were fully attributed to equity holders of the parent and are itemized below:
